NEWSLETTER No. 47 October 2009

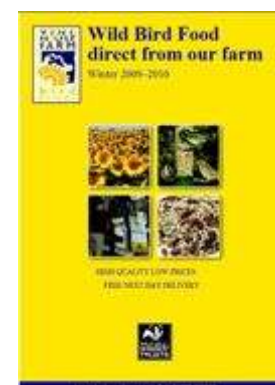

YOUR REGULAR UPDATE TO ISSUES AFFECTING WILD BIRDS & VINE HOUSE FARM BIRD FOODS

New winter catalogue, new products and new special offers!

Our new catalogue should be landing on your door mats in the next couple of days, we have added some exciting new products and special offers now available.

Autumn is on our doorstep once again with our mornings feeling decidedly cooler and our evenings longer. Our garden birds will be greatly affected by these changes and will have to change their routines and ensure they have reliable food sources to ensure survival through the winter. At present there is generally a good source of food available, this will however dwindle as winter and the cold weather approaches.

Here are a few highlights of what we now have on offer, please [visit our website](#) for more information.

Robin & Friends Mix

VHF ROBIN AND FRIENDS MIX

NEW

Containing dried mealworms and energy rich suet pellets this mix has been specifically designed with Britain's most popular bird in mind, the Robin and its soft-billed friends. Ideal for feeding on bird tables and on the ground, all soft-billed species will love the small-bite sized sunflower heart chips and Blackbirds will adore the inclusion of sultanas.

Contains: Sunflower heart chips, peanut granules, pinhead oats, naked oats, sultanas, rolled oats, kibbled maize, berry suet pellets and dried mealworms. [Buy](#)

JJ- OX2 42.5cm 4 port 800g capacity £31

JJ- OX3 58cm 6 port 1.1kg capacity £35.50

2009 Birdseed Harvest

Like many of you have been experiencing we have had an incredibly dry September. The dry weather has meant though that we have made great progress with harvesting our crops that we grow for bird food which are ready later than most combinable crops. We have completed the canary seed and red and white millet and started the first of the black sunflowers yesterday. Due to the dry weather they are coming into store in the best condition we have seen for several years. Over the next few weeks we will be drying and cleaning the sunflowers ready for using in the forthcoming months.
